The image shows the four members of the rock band Bad Rain standing in a doorway. The scene is lit with dramatic, high-contrast lighting, primarily in shades of red and blue. The band members are dressed in a mix of leather, denim, and patterned clothing. The central figure wears a black cap and a black jacket with white heart patterns. The lighting creates a moody, industrial atmosphere. A sign on the left wall reads "Personenbeförderung verboten!".

REVIEWS – Debut EP „Room to Breathe“

„The hard rock combo leaves no room for unnecessary sound frills on their five-track EP. The single Afterlife rolls through the speakers with full distortion and carried by the soulful rock voice of singer Dan Byrne. The mid-tempo bangers „Your Chains“ and the lively „Twisted Love“ are stylistically reminiscent of Little Caesar and Thunder.“ 4.5 of 5 Stars! – [GUITAR MAGAZIN](#)

“Drummer Veit Schlembach, guitarist Dani Davis and bassist Chris Buchberger – deliver five tracks of breath-taking blues-rock filth ‘n’ fury that broils, bubbles and seethes with passion and pathos, mixed with ironic laconicism and languidity but enough fiery volcanism to keep Mount Etna in business for the next millennium. This is an EP that doesn’t need room to breathe. It immediately invades every one of your senses, plants itself on your worn-out leather sofa, demands a beer and declares “inhale me”. Well, I don’t smoke, but I’ll gladly have some of these fumes and take a walk in this bad rain...” –

“When great musicians from Germany unite with an amazing English singer, you have the perfect combo to blast the music scene. High-pitch vocals, melodies and kick-ass riffs. This brings back memories of the early seventies with the bands that made the epic music we all know and worship. So yeah I took a while to do this review, once again this is perfect. *Bad Rain* is going to blast the world with their straight-to-the-point awesome songs. Some of the musicians are already known from previous bands, but they created the best of the best bands we need. A must-have 100/100.” –

"Your Chains" contains various special features. While the beginning sounds like a bluesy story, the ballad turns into a melancholy song worth listening to. An explosive mixture with Dan's voice and background vocals. "Open up your heart and set me free" could also mean: "open your ears and let the sound creep in". – [HELLFIRE MAGAZINE](#)

“Bad Rain are a newer band, made up of international musicians, evidently with significant previous experience. And this is clear as soon as you hear the first notes of their EP release, called “Room To Breathe”, which contains 5 songs. The line-up features an excellent singer named Dan Byrne, and the group initially made their mark on a wider audience with the single and video for the song “Afterlife”. Their EP is produced in a modern way, and the stylistic and performing composition combines elements of melodic hard rock and classic rock. The influences of 80’s hard rock and the British school are also very noticeable” – [TIME MACHINE MUSIC](#)
