A photograph of five men, the members of the band Bad Rain, standing in a music studio. They are dressed in rockabilly-style clothing, including leather jackets, t-shirts, and caps. The background is filled with musical equipment, posters, and a wall of acoustic foam. The text "WE ARE „BAD RAIN“ — MODERN ROCK" is overlaid in white, bold, sans-serif font across the bottom of the image.

**WE ARE „BAD RAIN“ — MODERN ROCK**

## ***BIOGRAPHY:***

Grappling for the throne of Germany's new favourite hard-rock outfit, Bad Rain are an international group of seasoned musicians, with stage-craft and experience beyond their years.

Born from the ashes of Munich's front-runners Password Monkey & 7Mazes, while enlisting the vocal prowess of Croatian rock powerhouse Zoran Misic, Bad Rain have years of world tours, chart success and world-renowned musicianship under their belts, but are now ready to share their brand of powerful modern rock music that'd keep the most die-hard classic rock fan happy.

# EP – Room to Breathe

**OUT November 3rd – 2023**  
*only physical sale – singles also  
on all streaming platforms*

**Released by:**  
**FASTBALL MUSIC (Label)**

# REVIEWS – Debut EP „Room to Breathe“

„The hard rock combo leaves no room for unnecessary sound frills on their five-track EP. The single Afterlife rolls through the speakers with full distortion and carried by the soulful rock voice of singer Dan Byrne. The mid-tempo bangers „Your Chains“ and the lively „Twisted Love“ are stylistically reminiscent of Little Caesar and Thunder.“ 4.5 of 5 Stars! – [GUITAR MAGAZIN](#)

“Drummer Veit Schlembach, guitarist Dani Davis and bassist Chris Buchberger – deliver five tracks of breath-taking blues-rock filth ‘n’ fury that broils, bubbles and seethes with passion and pathos, mixed with ironic laconicism and languidity but enough fiery volcanism to keep Mount Etna in business for the next millennium. This is an EP that doesn’t need room to breathe. It immediately invades every one of your senses, plants itself on your worn-out leather sofa, demands a beer and declares “inhale me”. Well, I don’t smoke, but I’ll gladly have some of these fumes and take a walk in this bad rain...” –

[UBER ROCK UK](#)

“When great musicians from Germany unite with an amazing English singer, you have the perfect combo to blast the music scene. High-pitch vocals, melodies and kick-ass riffs. This brings back memories of the early seventies with the bands that made the epic music we all know and worship. So yeah I took a while to do this review, once again this is perfect. *Bad Rain* is going to blast the world with their straight-to-the-point awesome songs. Some of the musicians are already known from previous bands, but they created the best of the best bands we need. A must-have 100/100.” –

[THE METAL MAG](#)

"Your Chains" contains various special features. While the beginning sounds like a bluesy story, the ballad turns into a melancholy song worth listening to. An explosive mixture with Dan's voice and background vocals. "Open up your heart and set me free" could also mean: "open your ears and let the sound creep in". – [HELLFIRE MAGAZINE](#)

“Bad Rain are a newer band, made up of international musicians, evidently with significant previous experience. And this is clear as soon as you hear the first notes of their EP release, called “Room To Breathe”, which contains 5 songs. The line-up features an excellent singer named Dan Byrne, and the group initially made their mark on a wider audience with the single and video for the song “Afterlife”. Their EP is produced in a modern way, and the stylistic and performing composition combines elements of melodic hard rock and classic rock. The influences of 80’s hard rock and the British school are also very noticeable” – [TIME MACHINE MUSIC](#)

# Info Mixing Engineer

Dear Mixing Engineer,

thank you very much for taking care of our sound. We now know how important you are for our show and the sound and have some little information for you that might help.

Our music is characterized above all by a partly multi-voiced guitar sound. It would be great if you could make sure that the two guitars are balanced in terms of volume and panning.

Both guitars play both leads and rhythm - differently from song to song (why 100% panning didn't make much sense). These are both equally important to the sound.

Apart from that, there are also a few solo and interaction parts that we give them in the form of a small set list before the show.

Thank you and see you at the show. Best regards - Bad Rain
